

I am writing in regards to my local station AIR 1. I believe that the service provided by AIR 1 serves me as a local resident and is in the public interest. Unlike many radio stations, AIR 1 provides a safehaven & a place where people can be encouraged and uplifted, which is such a rare thing in today's media. It has brought so much joy in my life that it would be detriment to society if it ever left the airwaves. I am strongly recommending that AIR 1 NOT to be displaced by an LPFM broadcaster providing other programming.
